Advent Energy PEP11 Seismic Reprocessing and Site Survey

MEC Resources Ltd (ASX: MMR) is pleased to advise that following investee Advent Energy Ltd's completion of the successful reprocessing of the 2004 2D seismic data, two further potential drilling targets have been identified within PEP11, off the coast of NSW, Australia.

Subsequently, Advent has expanded its current site survey program to include these new sites. The site survey data acquisition is scheduled to be complete before the end of May.

Advent is focused on drilling a single exploration well with the semi-submersible drilling rig *Ocean Patriot*, scheduled for the third quarter 2010.

Yours faithfully,
